materials and articles intended to come into contact with food with possible amendments.

• Regulation (EU) 1169/2011 - concerning absence of the listed allergens in Appendix II.

All products are suitable for its intended use and have been tested for possible contamination and hazards (interactions) towards products and consumers.

Plus Pack will always assist in the choice of packaging, but the packer is ultimately responsible for choosing the right packaging for the product/process. The products must be tested until end shelf life time by correct packaging trials to avoid process problems – product smell, taste or visual deformation of the total end product.

## Migration tests:

The migration test conditions are as follows (EU Regulation 2011/10). Test conditions from a higher OM level are accepted.

10 days at 40 °C (OM2) in 10 % ethanol

10 days at 40 °C (OM2) in 3 % acetic acid

10 days at 40 °C (OM2) in 95% Ethanol and 2 days at 20 °C in Isooctane

Dual use additives that might be present | None

**Content of BPA** 

No

International material recycling symbol:

The statement is based on documentation from Plus Pack suppliers of raw materials and goods. The declaration is indicative and applies to the product when used during normal and foreseeable conditions consistent with referred temperature-, time- and contact constraints.
